Preparations

Project results

We expect you to prepare a 10-minute presentation of the project in your country. (Sweden has produced this leaflet: <https://www.skolverket.se/getFile?file=7758>)

Quality and quality assurance in VET in the time of a pandemic.

1. What support has been offered to schools and working life during the pandemic to ensure quality of workbased learning?
2. How extensive are the challenges of workbased learning in your countries? Are there differences between regions and sectors?

Evaluation of the project

Five short survey questions. The link will be activated on Tuesday, March 2.

<https://response.questback.com/skolverket/fgneespn2>

Future projects

3. Can we find new projects to cooperate on in the light of the Osnabrück declaration? Are there topics you would like to explore during next project round?

The Osnabrück declaration
